

VERMONT ELECTORAL VOTE.
This day, the returns will all be made officially at Montpelier. So far as returns have been received by us, they indicate that HARRISON has received a majority of **FIFTEEN THOUSAND**, and so we have the **BANNER**, unless Louisiana has given over two thousand majority for Harrison, which is hardly probable. Even Washington County has been redeemed.

Nantucket and Dukes, and three Whig towns in Berkshire, to be heard from. Nantucket and Dukes are good for 500 Whig majority. The three towns in Berkshire are good for 200 more.

The majority for Davis in the State is over 16,000. For the Electoral Ticket 20,000.

THE ELECTIONS IN THE STATES.

Maine has given the Harrison Electors a majority of between 6 and 700. There has been, probably, no choice of member of Congress in Noyes-District.

New Hampshire has given Van Buren some where about 6000 majority—a few towns to be heard from.

Ohio has given to her adopted son a majority of about 25,000.

In Pennsylvania the official canvass of all but two counties gives the Harrison Electors between 2 & 300 majority.

GEORGIA. There are 93 counties in the State, 52 of which have been heard from. In these 52 counties there has been a net Whig gain since October of 2002.

MICHIGAN. Nearly all the State heard from—Harrison majority from 10 to 1500.

VIRGINIA. Returns from 108 counties—Harrison leads 71 votes. 14 counties to be heard from, which will give the State to Van Buren by a very small majority.

P. S. The official returns from every county in Pennsylvania give 264 majority for Harrison Electors.

FATAL ACCIDENT.

We understand that as Mr. Charles Sherman, of Charlotte, was digging a load of sand from the side of a bank, for the purpose of plastering a house which he was erecting, a portion of the bank fell, and buried him beneath it. He was highly esteemed by a large circle of friends, and his sudden removal will be much lamented. He was aged about 23 years. *Patterson Free Press.*

LATER FROM EUROPE.

ARRIVAL OF THE STEAMSHIP BRITANNIA AT BOSTON.

The Britannia arrived at Boston on Tuesday morning having made the passage in thirteen and a half days, and bringing sixteen days later intelligence that was received by the President.

The news by this arrival is important, and is decidedly pacific. There no longer seems to be a prospect of war between the Great powers of Europe. Correspondence between M. Thiers and Lord Palmerston goes to show that France will not now act in that quarter, and as Lord Palmerston at present professes a wish merely to deprive Mohamed Ali of his possessions in Syria, and not to curtail his power in Egypt, it is not unlikely that there will be long an amicable adjustment of this ever lasting Eastern Question.

The Empire City. The population of the city of New York, according to the census just completed, is 313,629, viz: white males 144,324, black males 6,637, white females 153,630, black do. 9,638. In 1835 the census was 270,085. The number of white deaf and dumb in the city is 253, black do.

The White Insane and Idiots. Black 111. Revolutionary pensioners 31, those over 80 years of age 17, over 90 years 3.

HARRISON CAKE.

For the benefit of all good housewives, who go for Old Tip, we give from the Salem Gazette the following receipt for Harrison Cake—"Five Coffee Cups of flour, one and a half of butter, two and a half of molasses, two lbs. of raisins whole, four eggs, one gill of milk with a teaspoonful of sanguineous, several kinds of spice, essence lemon, &c. To be baked in deep cake pans three hours."

RELIGIOUS STATISTICS. The following information collected with much trouble by the committee of the society for the propagation of the gospel in Foreign Parts, is interesting:

Christians, 260,000,000

Jews, 4,000,000

Mahometans, 96,000,000

Idolaters of all sorts, 500,000,000

Celebration of Duncan's defeat. The Harrison Democrats of Wilmington, Ohio, on hearing of the overthrow of Dr. Duncan, burnt a barrel of Whiskey.

Steamboat Accident. The steamboat Le Roy, Capt Smith, which was employed on the Bruns-wick (Geo.) Line to convey the mail and passengers between Chattanooga and Idola, burst her boiler on the 24th ult., and afterwards took fire and burnt to the water's edge, opposite Blount's town. Six persons were killed and several dangerously scalded, burnt, or otherwise wounded. Of thirteen persons on board, only three escaped unharmed.

Wheat was selling at Rochester, New York, last week in considerable quantities at 75 cents per bushel. Flour was selling at \$1.425. A great deal of flour had been made during the week, but not so much sold or shipped by six or seven thousand barrels as in the week previous.

Counterfeits of the bank of Lebanon are in circulation. They are from a new plate, entirely different from the genuine bills, which are all from Perkin's steel plate. Bills of the same plate, purporting to be of the bank of Vernon, (there is no such bank,) are supposed to be in circulation.

Shocking Murder. We learn, says the Edinburgh Sentinel of the 16th, Dr. Morehead, at Grand Gulf, killed Dr. Sullivan, by stabbing him in the abdomen and cutting his throat. It is said that a misunderstanding had arisen between them and Dr. Sullivan refused to speak to Dr. Morehead, who demanded the reason. Dr. S. assigned no reasons which excited the Jealousies of his opponent and led to the horrible and brutal murder.

The editor of the Bay State Democrat says he understands that the Grand Jury returned a bill of indictment against him for a libel upon M. H. Gwinell, of New York.

A warning. A writer in the Zions Herald says he has recently visited Thomas, who is confined in the jail at Amherst, N. H., for the murder of Charles Small. When asked what induced him to commit the crime, Thomas replied: "I suppose I had taken full enough."

"Mr. Van Buren loves the people,"—Giles.

But the people don't return his poison. The poor man's "crossed in love."

The Whigs of Vermont, in their election, enacted the eighth article in the amendments of the constitution of the United States which provide that "cruel and unusual punishments shall not be inflicted."—Madison.

17 Checks for three dollars on the bank of St. Albans, (Vt.) drawn by the Mechanics' Exchange Company, New York, well executed, are in circulation in this city. They are entirely worthless and unless particularly noticed they will be likely to pass for bills of the Bank of St. Albans.—Portland Ad.

Since the late elections the law form has been heard to remark, very seriously, that they were not aware that Salt river was navigable enough up.

M. Van Buren appears to run among the states of the union like a whale among seals; and not Nantucket whale hosts. Each one, as he passes, buries a harpoon to the handle in the shoulder of the little monster.

Miss Appleton is fully occupied with the preparation of the school year.

From present appearances the Committee feel con-

fident that the institution will be well sustained &

although their acquaintance, with the principals is yet somewhat limited, they feel that the selection was most fortunate and that the institution though in its infancy, bids fair to take a stand with the highest of its class.
